CONTENTS

Quarterly Results of Operations

On November 4, 2021, Stratasys Ltd. ("we" or "us") announced our financial results for the third quarter ended September 30, 2021. A copy of our press release announcing our results is furnished as <u>Exhibit 99.1</u> to this Report of Foreign Private Issuer on Form 6-K (this "Form 6-K") and is incorporated herein by reference.

In conjunction with the conference call being held on November 4, 2021 to discuss our results, we are furnishing a copy of the slide presentation that provides supplemental information regarding our business and our financial results, and which will be referenced on that conference call. We have attached that presentation to this Form 6-K as Exhibit 99.2, which exhibit is incorporated herein by reference.

The information in this Form 6-K, including Exhibits 99.1 and 99.2, shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

1

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Dated: November 4, 2021

EXHIBIT INDEX

The following exhibits are furnished as part of this Form 6-K:

Exhibit	Description
99.1	Press release dated November 4, 2021 announcing the financial results of Stratasys Ltd. for the third quarter ended September 30, 2021
99.2	Slide presentation providing supplemental information to be referenced on the conference call of Stratasys Ltd. discussing its quarterly financial results, being held on November 4, 2021

Stratasys Releases Third Quarter 2021 Financial Results

- Revenue of \$159.0 million
- GAAP net loss of \$18.1 million, or \$0.28 per diluted share, and non-GAAP net income of \$0.5 million, or \$0.01 per diluted share
- Generated \$3.0 million of cash from operations
- Secured two large, end-use part manufacturing contracts with the US Navy and a leading, global OEM
- \$519.9 million cash, cash equivalents and short-term deposits, and no debt at quarter end

MINNEAPOLIS & REHOVOT, Israel -(BUSINESS WIRE)- November 4, 2021 - Stratasys Ltd. (NASDAQ: SSYS), a leader in polymer 3D printing solutions, today announced financial results for the third quarter of 2021.

Third Quarter 2021 Financial Results Summary Compared to Third Quarter 2020:

- Revenue of \$159.0 million compared to \$127.9 million.
- GAAP gross margin was 42.9%, compared to 38.9%.
- Non-GAAP gross margin was 48.2%, compared to 46.8%.
- GAAP operating loss was \$21.9 million, compared to an operating loss of \$404.3 million.
- Non-GAAP operating income was \$1.8 million, compared to an operating loss of \$1.0 million.
- GAAP net loss was \$18.1 million, or \$0.28 per diluted share, compared to a net loss of \$405.1 million, or \$7.35 per diluted share.
- Non-GAAP net income of \$0.5 million, or \$0.01 per diluted share, compared to a net loss of \$3.0 million, or \$0.05 per diluted share.
- Adjusted EBITDA was \$7.8 million, compared to \$5.2 million.
- Cash generated from operations of \$3.0 million, compared to \$2.6 million.

Dr. Yoav Zeif, Stratasys' Chief Executive Officer stated, "We are at an inflection point for additive manufacturing. Industries appreciate the many benefits of our technologies and are increasingly adding 3D printing to their production plans, driving the shift from prototyping to mass production. Our third quarter was highlighted by revenue growth of 24.3% and systems sales growth of 34.7% year-over-year, with contributions across all regions and all business lines. We achieved a number of important manufacturing-focused milestones, including the securing of contracts with the US Navy and a major international OEM, specifically for end-use part production."

Dr. Zeif continued, "Our vision of becoming the first choice for polymer 3D printing solutions with a focus on manufacturing continues to progress. We are executing on that goal by leveraging our outstanding reputation for excellence in both technology and service to help customers achieve true scaled production of end use parts. We expect the ongoing introduction of new product initiatives to further accelerate growth, complimented by our now 100% ownership of Xaar 3D and the new SAF technology, along with our recently announced open and enterprise-ready software platform that integrates with Industry 4.0 infrastructure and applications. We will continue to invest across our portfolio to further grow our sales and drive a return to sustained profitability."

Financial Outlook:

Based on current market conditions and assuming that the impacts related to the pandemic or global supply chain constraints do not impede the economic environment further, the Company is reiterating and updating its outlook as follows:

- Fourth quarter 2021 revenue approximately 16% higher year-over-year, driven by continued growth in systems relative to Q4 of both 2020 and 2019.
- Full year-operating expenses expected to rise approximately \$36 million compared to 2020, primarily due to fully owning Xaar 3D and higher operating costs
 associated with higher revenues.
- Full year capital expenditures anticipated to range from \$24 million to \$30 million.
- Longer term, the Company continues to expect significant leverage benefit from its investments as revenue growth should start to accelerate in 2022 and beyond.

Stratasys Ltd. Third Quarter 2021 Webcast and Conference Call Details

The Company plans to webcast its conference call to discuss its third quarter 2021 financial results on Thursday, November 4, 2021 at 8:30 a.m. (ET).

The investor conference call will be available via live webcast on the Stratasys Web site at investors.stratasys.com, or directly at the following web address:

https://78449.themediaframe.com/dataconf/productusers/ssys/mediaframe/47128/index1.html

To participate by telephone, the U.S. toll-free number is 877-407-0619 and the international dial-in is +1-412-902-1012. Investors are advised to dial into the call at least ten minutes prior to the call to register. The webcast will be available for six months at investors.stratasys.com, or by accessing the above-provided web address.

Stratasys is leading the global shift to additive manufacturing with innovative 3D printing solutions for industries such as aerospace, automotive, consumer products and healthcare. Through smart and connected 3D printers, polymer materials, a software ecosystem, and parts on demand, Stratasys solutions deliver competitive advantages at every stage in the product value chain. The world's leading organizations turn to Stratasys to transform product design, bring agility to manufacturing and supply chains, and improve patient care.

Cautionary Statement Regarding Forward-Looking Statements

The statements in this press release regarding Stratasys' strategy, and the statements regarding its projected future financial performance, including the financial guidance concerning its expected results for 2021 and beyond, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the degree of our success at introducing new or improved products and solutions that gain market share; the degree of growth of the 3D printing market generally; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intangible assets; the extent of our success at successfully consummating acquisitions or investments in new businesses, technologies, products or services; the strength and duration of, and degree of recovery from, the COVID-19 pandemic in the markets in which we operate; potential changes in our management and board of directors; global market, political and economic conditions, and in the countries in which we operate in particular (including risks related to the impact of coronavirus on our supply chain and business); costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D "Key Information - Risk Factors", Item 4, "Information on the Company", Item 5, "Operating and Financial Review and Prospects," and all other parts of our Annual Report on Form 20-F for the year ended December 31, 2020, which we filed with the U.S. Securities and Exchange Commission, or SEC, on March 1, 2021 (the "2020 Annual Report"). Readers are urged to carefully review and consider the various disclosures made throughout our 2020 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys' unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2021, which have been furnished to the SEC throughout 2021 (including on or about the date hereof), and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this press release are provided or made (as applicable) as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

3

Use of Non-GAAP Financial Measures

The non-GAAP data included herein, which excludes certain items as described below, are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our Company in gauging our results of operations (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains, legal provisions and (ii) excluding non-cash items such as stock-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items. These non-GAAP adjustments either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. These non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a period, which may not provide a comparable view of our performance to other companies in our industry. Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results on a GAAP and non-GAAP basis is provided in a table below.

Forward-looking Statements

Cautionary Statement Regarding Forward-Looking Statements

The statements in this slide presentation regarding Stratasys' strategy, and the statements regarding its projected future financial performance, including the financial guidance concerning its expected results for 2021, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the degree of our success at introducing new or improved products and solutions that gain market share; the degree of growth of the 3D printing market generally; the duration and degree of severity of, and strength of recovery from, the global COVID-19 pandemic; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; the extent of our success at successfully integrating into our existing business, or making additional, acquisitions or investments in new businesses, technologies, products or services; potential changes in our management and board of directors; global market, political and economic conditions, and in the countries in which we operate in particular (including risks related to the impact of coronavirus on our supply chain and business); potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intergible assets that we have recently acquired or may acquire in the future; costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital be, the exert of our success at maintaining our industry and marking our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D "Key Information - Risk Factors", Item 4, "Information on the Company", Item 5, "Operating and Financial Review and Prospects," and all other parts of our Annual Report on Form 20-F for the year ended December 31, 2020 (the "2020 Annual Report"). Readers are urged to carefully review and consider the various disclosures made throughout our 2020 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys' unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2021, which are furnished to the SEC over the course of 2021 (including on or about the date hereof), and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this slide presentation are made as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Use of non-GAAP financial information

Use of non-GAAP financial measures

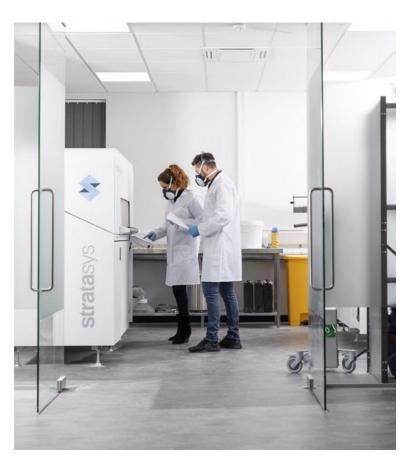

The non-GAAP data included herein, which excludes certain items as described below, are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our Company in gauging our results of operations (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains, legal provisions, and (ii) excluding non-cash items such as stock-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items. These non-GAAP adjustments either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. These non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a period, which may not provide a comparable view of our performance to other companies in our industry. Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results on a GAAP and non-GAAP basis is provided in a table later in this slide presentation.

Welcome

Dr. Yoav Zeif CEO

- Additive manufacturing is at an inflection
 point
- Improved technology, compelling advantages and supply chain needs are driving the shift from prototyping to production of end-use parts
- As we prepare to launch two new mass production systems, Stratasys is executing on our strategy to be the first choice for polymer 3D printing

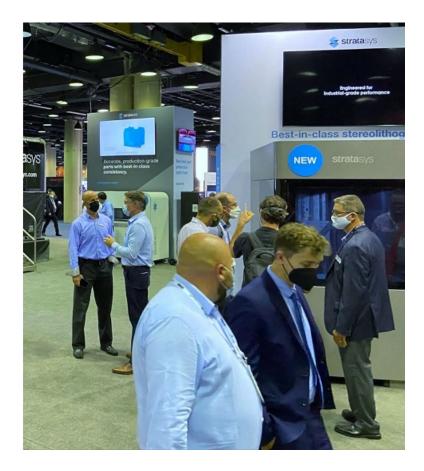

Highlights from Q3

- Growth across all business lines and regions
- 24% YoY revenue growth, driven by 35%
 Systems and 27% Consumables growth
- System sales +7% over Q3'19 driven in part by our manufacturing systems

Stratasys

Trade shows return

- More leads compared to 2019 at Rapid+TCT despite lower attendance
- Strong Origin One interest
- Returning to Formnext in Germany this month

Manufacturing focus gains traction

- U.S. Navy signs contract for \$20 million for up to 25 F900 systems, materials and support services over 5 years
- We believe it is the largest government additive manufacturing contract of its kind
- Advancing U.S. Department of Defense strategy to increase its use of additive manufacturing
- Additional multi-million-dollar, multi-year manufacturing contract for F900 systems with global, brand-name repeat customer
- Awards demonstrate Stratasys' reputation for excellence in technology and service, and industry trust for manufacturing of end-use parts

Xaar 3D acquisition

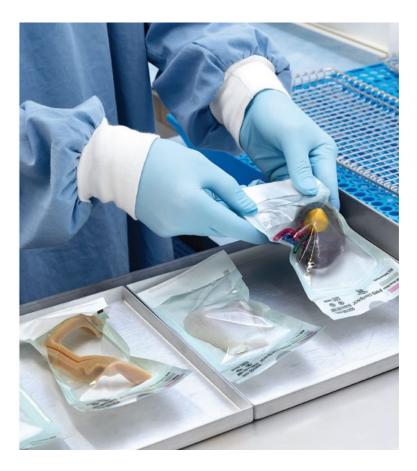

- Stratasys exercises option to acquire remaining 55% from Xaar
- H350 beta program approaches completion
- Early installations demonstrate production scale 3D printing

Recent healthcare accomplishments

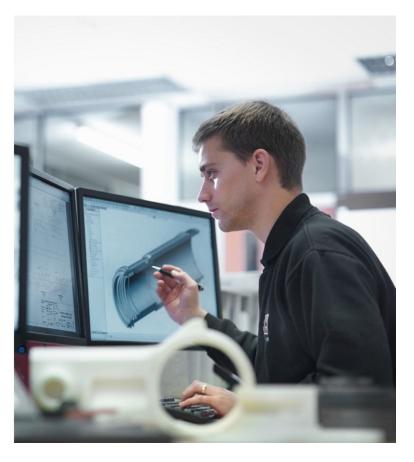

- Healthcare is our fastest-growing business
- J5 DentaJet and J5 MediJet see early market momentum
- Ricoh partnership with Stratasys and IBM Watson Health brings point-of-care and on-demand anatomical modeling services to healthcare facilities
- Bone 3D brings on-site access to 3D printing through "Hospifactory" project
- Life-changing impact illustrated through conjoined twin separation

Software strategy advances

- ProtectAM enhances cybersecurity of additive manufacturing, the first to work with Red Hat Enterprise Linux, world's leading enterprise platform
- GrabCAD Additive Manufacturing Open Platform Announced
 - o TAM \$3.3B by 2026*
 - Enterprise-ready platform designed to integrate the entire 'digital thread'
 - Open to broad set of software partners and third-party 3D printing systems
 - Manufacturers turning to Stratasys for Industry 4.0 connectivity for additive manufacturing
- Adobe Substance 3D Painter
 collaboration announced at Adobe MAX

* "Opportunities in Additive Manufacturing Software Markets 2020" SmarTech Analysis, June 2020

Competitive advantages to lead polymer additive manufacturing

Delivering innovative, next-generation technologies to address the fastest growing manufacturing applications

Broadest polymer technology platform

Five best-in-class technologies for every step in the product lifecycle – from concept through manufacturing

Enterprise-ready software platform to scale additive manufacturing

Comprehensive open platform connects to Industry 4.0, integrates the digital thread, and strengthens' Stratasys' competitive position Leading go-to-market infrastructure

Network of over 200 channel partners – largest and most experienced in the industry

Deep application engineering expertise

Multi-disciplinary application engineering expertise to educate customers and drive innovation

Resilient business model designed to scale

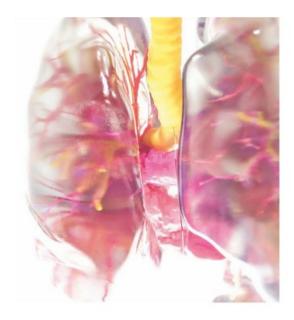

Corporate and GTM infrastructure can absorb and scale new business with operating leverage to drive profits and generate cash

Q3 Financial Results

- Third quarter results demonstrate
 continued strength in growing our market
- Generated operating profit and cash
 - o Revenue +24.3%
 - o Systems +34.7%
 - o Consumables +26.6%
 - o OCF \$3.0M

Lilach Payorski CFO

		GAAP		P		
	Q3-20	Q3-21	Change Y/Y	Q3-20	Q3-21	Change Y/Y
Total Revenue	127.9	159.0	24.3%	127.9	159.0	24.3%
Gross Profit	49.8	68.2	18.4	59.8	76.7	16.9
% Margin	38.9%	42.9%	4.0%	46.8%	48.2%	1.4%
Operating Income (Loss)	(404.3)*	(21.9)	382.4	(1.0)	1.8	2.8
% Margin	-316.1%	-13.8%	302.3%	-0.8%	1.1%	1.9%
Net Income (Loss) attributed to SSYS Ltd.	(405.1)	(18.1)	387.0	(3.0)	0.5	3.5
% Margin	-316.7%	-11.4%	305.3%	-2.4%	0.3%	2.7%

Diluted Shares	55.1	65.0	18.0%	55.1	66.0	19.8%

*Mainly due to goodwill impairment of 386.2

Note: \$ in millions unless noted otherwise. All numbers and percentages rounded

Revenue driven by product sales growth of 30.3%

Customer Support and Systems above, and Consumables near, Pre-COVID Levels

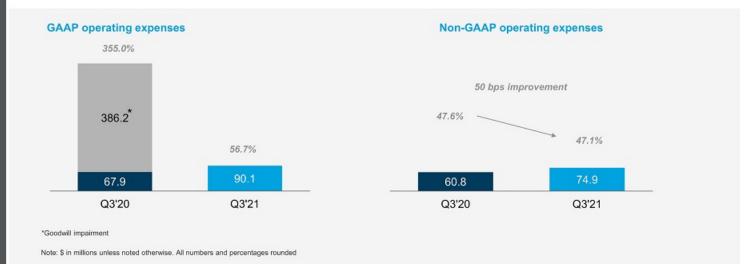

Revenue	Y/Y	Y/Y(exc. FX)
Product	30.3%	29.7%
System	34.7%	34.0%
Consumables	26.6%	25.9%
Service	13.0%	12.8%
Customer Support	7.2%	7.2%

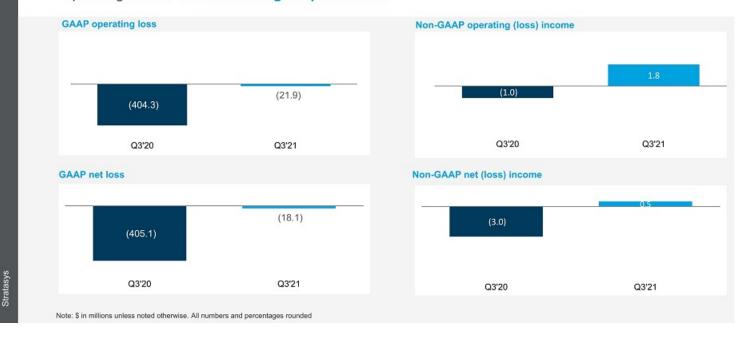

Gross margins improved from higher systems and consumables Still challenged by **rising logistics and raw materials costs** and **NPI ramp-up**

Operating expenses trending improvement as % of revenue

Operating income and net earnings improvement.

Balance sheet strong at **\$519.9M cash and equivalents** Five consecutive positive quarters generated **\$57.7M operating cash**

Note: \$ in millions unless noted otherwise. All numbers and percentages rounded

Q4 and 2021 Outlook

- Revenue in Q4 2021 is expected to grow approximately 16% compared to Q4 2020, driven by continued growth in systems
- Operating expenses for 2021 are expected to be approximately \$36M higher than 2020, reflecting full ownership of Xaar 3D and higher operating costs relative to higher revenues
- Capital expenditures in 2021 expected to range from \$24M to \$30M
- We are committed to growing our leadership and driving growth and profits as our revenues shift from prototyping to manufacturing

Stratasys

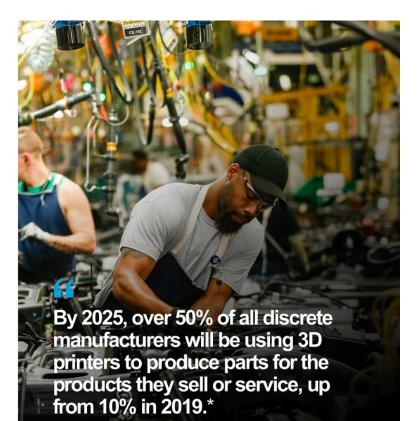

Summary

Dr. Yoav Zeif, CEO

- We have solutions for every step in the product life cycle chain to capitalize on this trend
- Only Stratasys provides the full range of best-in-class technologies for polymer 3D printing
- Our investments, balance sheet and strategy execution position us to build long-term value for our stakeholders
