Quarterly Results of Operations

On May 7, 2026, Stratasys Ltd. (“**Stratasys**”, “**we**” or “**us**”) announced its financial results for the first quarter ended March 31, 2026. A copy of our press release announcing our results is furnished as [Exhibit 99.1](#) to this Report of Foreign Private Issuer on Form 6-K (this “**Form 6-K**”) and is incorporated herein by reference.

In conjunction with the conference call being held on May 7, 2026 to discuss our results, we are furnishing a copy of the slide presentation that provides supplemental information regarding our business and our financial results, and which will be referenced on that conference call. We have attached that presentation as Exhibit 99.2 to this Form 6-K, which exhibit is incorporated herein by reference.

The information in this Form 6-K, including Exhibits 99.1 and 99.2, shall not be deemed to be “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

Exhibits

The following exhibits are furnished as part of this Form 6-K:

Exhibit	Description
99.1	Press release dated May 7, 2026 announcing the financial results of Stratasys Ltd. for the first quarter ended March 31, 2026
99.2	Slide presentation providing supplemental information to be referenced on the conference call of Stratasys Ltd. discussing its quarterly financial results, being held on May 7, 2026

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Stratasys Releases First Quarter 2026 Financial Results

- *Revenue of \$132.7 million, compared to \$136.0 million in the prior year period*
- *GAAP net loss of \$23.8 million, or (\$0.28) per diluted share, and non-GAAP net loss of \$1.3 million, or (\$0.01) per diluted share*
- *Adjusted EBITDA of \$2.0 million, compared to \$8.2 million in the prior year period, primarily due to the impact of foreign exchange rates and tariffs*
- *Positive operating cash flow of \$2.4 million, compared to \$4.5 million in the prior year period*
- *\$237.8 million in cash, equivalents and short-term deposits and no debt*
- *Reiterates 2026 Outlook*

MINNETONKA, Minn. & REHOVOT, Israel - (BUSINESS WIRE) – May 7, 2026 - Stratasys Ltd. (Nasdaq: SSYS), (“Stratasys” or the “Company”), a leader in polymer 3D printing solutions, today announced its financial results for the first quarter ended March 31, 2026.

“Our first quarter results reflect the resilience of our operating model in a measured spending environment, demonstrated by positive adjusted EBITDA and operating cash flow,” said Dr. Yoav Zeif, CEO of Stratasys. “Recurring revenue from consumables and customer support continued to provide stability, while Stratasys Direct delivered strong 23% organic growth year-over-year across a diverse range of industrial applications, led by drone customers. As we look forward, our current pipeline in high requirement applications, especially in defense, continues to build as we gain confidence in our ability to win prominent contracts in 2026 and beyond.”

Summary - First Quarter 2026 Financial Results Compared to First Quarter 2025:

- Revenue of \$132.7 million compared to \$136.0 million.
- GAAP gross margin of 41.7%, compared to 44.3%.
- Non-GAAP gross margin of 46.3%, compared to 48.3%.
- GAAP operating loss of \$26.5 million, compared to a GAAP operating loss of \$12.4 million.
- Non-GAAP operating loss of \$3.2 million, compared to non-GAAP operating income of \$3.0 million.
- GAAP net loss of \$23.8 million, or (\$0.28) per diluted share, compared to a net loss of \$13.1 million, or (\$0.18) per diluted share.
- Non-GAAP net loss of \$1.3 million, or (\$0.01) per diluted share, compared to non-GAAP net income of \$2.9 million, or \$0.04 per diluted share.
- Adjusted EBITDA of \$2.0 million, compared to \$8.2 million.
- Cash provided by operating activities of \$2.4 million, compared to \$4.5 million in the prior year period.

Financial Outlook:

The Company is reaffirming its outlook for 2026, as set forth below, which is based on current market conditions and assumes that the impacts of global inflationary pressures, relatively high interest rates, exchange rates, increased tariffs and other supply chain costs do not impede economic activity further.

- Full year revenue growing to a range of \$565 million to \$575 million, improving sequentially through the year.
- Based on current logistics and materials costs, full year non-GAAP gross margins of 46.7% to 47.1%, including approximately \$7 million of adverse impact from tariffs and foreign exchange rates relative to 2025.
- Full year non-GAAP operating expenses ranging from \$260 million to \$262 million, including approximately \$10 million of adverse impact from changes in foreign exchange rates.
- Full year non-GAAP operating margins in a range of 0.7% to 1.5%.
- GAAP net loss of \$83 million to \$67 million, or (\$0.95) to (\$0.76) per diluted share.
- Non-GAAP net income of \$8 million to \$12.5 million, or \$0.09 to \$0.14 per diluted share.
- Adjusted EBITDA of \$25 million to \$30 million, with Adjusted EBITDA margin of 4.5% to 5.0%.
- Capital expenditures of \$20 million to \$25 million.
- Expects to generate positive operating cash flow subject to uncertainty related to foreign exchange rates and tariffs.

Appropriate reconciliations between historical GAAP and non-GAAP financial measures, as well as between the GAAP and non-GAAP financial measures included in our financial outlook for 2026, are provided in the tables at the end of our press release and slide presentation, with itemized detail concerning the non-GAAP financial measures. We have not included, however, guidance for 2026 for GAAP gross margin or GAAP operating expenses, or a reconciliation of our guidance for 2026 for non-GAAP gross margins or non-GAAP operating expenses to the most directly comparable GAAP financial measures (i.e., GAAP gross margin or GAAP operating expenses, respectively), as the information needed to provide that GAAP guidance and that reconciliation is not available to us without unreasonable effort or with reasonable certainty from a quantitative perspective. We expect that the foregoing missing information related to our outlook on a GAAP basis for 2026 is likely to result in significant changes relative to our non-GAAP outlook in respect of the subject financial measures.

Stratasys Ltd. First Quarter 2026 Webcast and Conference Call Details

The Company plans to webcast its conference call to discuss its first quarter 2026 financial results on Thursday, May 7, 2026, at 8:30 a.m. (ET).

The investor conference call will be available via live webcast on the Stratasys Web site at investors.stratasys.com, or directly at the following web address:

<https://event.choruscall.com/mediaframe/webcast.html?webcastid=jBx4uZ5o>

To participate by telephone, the U.S. toll-free number is 877-407-0619 and the international dial-in is +1-412-902-1012. Investors are advised to dial into the call at least ten minutes prior to the call to

register. The webcast will be available for six months at investors.stratasys.com, or by accessing the above-provided web address.

Stratasys is leading the global shift to additive manufacturing with innovative 3D printing solutions for industries such as aerospace, automotive, consumer products, healthcare, fashion and education. Through smart and connected 3D printers, polymer materials, a software ecosystem, and parts on demand, Stratasys solutions deliver competitive advantages at every stage in the product value chain. The world's leading organizations turn to Stratasys to transform product design, bring agility to manufacturing and supply chains, and improve patient care.

Cautionary Statement Regarding Forward-Looking Statements

The statements in this press release regarding Stratasys' strategy, and the statements regarding its projected future financial performance, including the financial guidance concerning its expected results for 2026 and beyond, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the extent of our success at introducing new or improved products and solutions that gain market share; the extent of growth of the 3D printing market generally; the global macro-economic environment, including the impact of increased and/or reciprocal import tariffs that have been imposed by the U.S. and other countries, and of higher energy costs due to the U.S.-Iranian conflict; global trends involving inflation, interest rates, economic activity and currency exchange rates, and their impact on the additive manufacturing industry, our company and our customers, in particular; changes in our overall strategy, including as related to any restructuring activities and our capital expenditures; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intangible assets; the extent of our success at successfully consummating and integrating into our existing business acquisitions or investments in new businesses, technologies, products or services, the potential adverse impact of global interruptions and delays involving freight carriers and other third parties on our supply chain and distribution network; global market, political and economic conditions, and in the countries in which we operate in particular; potential adverse effects of Israel's wars against Iran and its sponsored terrorist organizations Hamas, Hezbollah, and, intermittently, the Houthi terrorist group in Yemen; costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D "Key Information - Risk Factors", Item 4, "Information on the Company", Item 5, "Operating and Financial Review and Prospects," and all other parts of our Annual Report on Form 20-F for the year ended

December 31, 2025, which we filed with the U.S. Securities and Exchange Commission, or SEC, on March 5, 2026 (the “2025 Annual Report”). Readers are urged to carefully review and consider the various disclosures made throughout our 2025 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys’ unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2026, which have been or will be furnished to the SEC throughout 2026, and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this press release are provided or made (as applicable) as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Use of Non-GAAP Financial Measures

The non-GAAP data included herein, including, but not limited to, data for non-GAAP gross margins, non-GAAP operating loss, non-GAAP operating margins, non-GAAP net income, and Adjusted EBITDA, which non-GAAP data excludes certain items, as detailed in the reconciliation tables herein, are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our company in gauging our results of operations. Our management utilizes these non-GAAP measures to enable us to assess our financial results (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains and legal provisions, (ii) excluding non-cash items such as share-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items, (iii) for certain non-GAAP measures, after eliminating the impact of changes attributable to currency exchange rate fluctuations, and (iv) after excluding changes in revenues solely attributable to divestitures of former subsidiary companies. The items eliminated as part of our calculation of our non-GAAP financial measures either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. Our non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a period, which may not provide a comparable view of our performance to other companies in our industry. Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results, and between our outlook for 2026 (other than for gross margin and operating expenses, for which GAAP data is not available to us without unreasonable effort or with reasonable certainty), on a GAAP and non-GAAP basis is provided in the tables below.

Forward-Looking Statements

Cautionary Statement Regarding Forward-Looking Statements

The statements in this slide presentation regarding Stratasys' strategy and its projected future financial performance, including the financial guidance concerning its expected results for 2026, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the extent of our success at introducing new or improved products and solutions that gain market share; the extent of growth of the 3D printing market generally; the global macro-economic environment, including the impact of increased import tariffs that have been imposed by the U.S. and other countries; global trends involving inflation, interest rates, economic activity, currency exchange rates, and increased energy costs, and their impact on the additive manufacturing industry, our company and our customers, in particular; changes in our overall strategy, including as related to any restructuring activities and our capital expenditures; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intangible assets; the extent of our success at successfully consummating and integrating into our existing business acquisitions or investments in new businesses, technologies, products or services; the potential adverse impact of global interruptions and delays involving freight carriers and other third parties on our supply chain and distribution network; global market, political and economic conditions, and in the countries in which we operate in particular; potential adverse effects of Israel's recent preemptive or retaliatory wars against Iran and/or its sponsored terrorist organizations Hamas, Hezbollah, and, intermittently, the Houthis; costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D "Key Information - Risk Factors", Item 4, "Information on the Company", Item 5, "Operating and Financial Review and Prospects," and all other parts of our Annual Report on Form 20-F for the year ended December 31, 2025, filed with the U.S. Securities and Exchange Commission, or SEC, on March 5, 2026 (the "2025 Annual Report"). Readers are urged to carefully review and consider the various disclosures made throughout our 2025 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys' unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2026, which will be furnished to the SEC throughout 2026, and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this slide presentation are provided or made (as applicable) as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Use of Non-GAAP Financial Information

Use of Non-GAAP Financial Measures

The non-GAAP data included herein, but not limited, which excludes certain items as described below, are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our company in gauging our results of operations. Our management utilizes these non-GAAP measures to enable us to assess our financial results (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains and legal provisions, (ii) excluding non-cash items such as share-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items, (iii) for certain non-GAAP measures, after eliminating the impact of changes attributable to currency exchange rate fluctuations, and (iv) after excluding changes in revenues solely attributable to divestitures of former subsidiary companies. The items eliminated as part of our calculation of our non-GAAP financial measures either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. Our non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a period, which may not provide a comparable view of our performance to other companies in our industry.

Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results on a GAAP and non-GAAP basis is provided in the tables later in this slide presentation. We have not included herein, however, a reconciliation of our non-GAAP guidance for 2026 to the most directly comparable GAAP guidance. Please see our earnings release being published today for that reconciliation (other than for our guidance for non-GAAP gross margin and non-GAAP operating expenses, as we are unable to obtain the information needed to provide either the equivalent GAAP figures (projected GAAP gross margin and projected GAAP operating expenses) or the related reconciliation without unreasonable effort or with reasonable certainty from a quantitative perspective).

Dr. Yoav Zeif
CEO

- **Recurring revenue streams** from consumables and customer support provide stability as customers exercise capital equipment discipline
- **Focused on executing our strategy** to grow as we deepen our penetration into manufacturing
- **Sequential growth** from Consumables, Services and Stratasys Direct parts manufacturing
 - **Stratasys Direct +23% YoY organically** driven by drone customers
- **Innovation, customer engagement and market development** centered on secular supply chain and operational efficiency megatrends reshaping global manufacturing
- **In aerospace and defense**, mission-critical performance requirements, supply chain resilience mandates, and expanding US DoW investment in advanced digital manufacturing create strong structural demand environment
- **Competitive advantage** enabling local, rapid, and cost-effective production will accelerate adoption over time

Dental / Materials / Software

TrueDent® CE Class IIA Certification

- First polychromatic, monolithic 3D-printed denture solution certified at this classification in Europe, a segment projected at \$2.45B by 2028
- Broadens range to include long-term intraoral removables, crowns and bridges through a single, integrated digital workflow
- Removes meaningful adoption barrier, strengthens biocompatibility and safety confidence for clinicians and patients, and positions Stratasys to deepen penetration across European dental labs and clinics as digital denture production scales
- No change to print settings, formulation, workflow, or shelf life makes this a frictionless expansion of our commercial reach

Materials Expansions: ULTEM™ on F3300 and ToughONE™ on PolyJet to Drive Consumables Attach Rates

- ULTEM 1010 now available on the F3300 printer, enabling production of aerospace-grade, high-temperature parts with the lowest coefficient of thermal expansion in the FDM portfolio
- Optimized for composite tooling applications, allows manufacturers to produce precision fixtures and tools that maintain reliability in demanding environments, faster and at lower cost. Planned for availability this summer in larger spool sizes on F900 and Fortus 450mc Gen III printers
- ToughONE, an advanced material engineered for functional prototyping as well as end-use parts, now available on J3/J5

Software Integration: Measurement-Based Warped Adaptive Modeling Now Available on GrabCAD Print Pro™

- Automatically corrects warping on the Origin P3 platform, eliminating iterative correction cycles for complex parts like electrical connectors, precision jigs, and industrial fixtures that have historically added time and cost

Dr. Yoav Zeif, CEO

Summary

- **Customer engagement continues to increase** - deal pipeline for 2026 and beyond continues to build, especially in defense
- **Strategic progress** today reinforces the trajectory for tomorrow
- **Defense industry solutions** are established, certified and operating at scale across active military platforms
- **Increased access to multi-billion-dollar European dental vertical** with proven, deployable product
- **Positive operating cash flow and a debt-free balance sheet** for multiple opportunities to generate profitable growth both through inorganic and organic opportunities, focusing on our position in high-requirement use-cases, as we capitalize on the increased demand for additive manufacturing
