CONTENTS

Agreement for Acquisition of Markforged, Inc.

On May 27, 2026, Stratasys Ltd. (“**Stratasys**”, “**we**” or “**us**”) announced that it has entered into a definitive agreement to acquire Markforged, Inc. (“**Markforged**”), a leading provider of end-to-end Fused Filament Fabrication (FFF) solutions and a wholly owned indirect subsidiary of Nano Dimension Ltd. (“**Nano Dimension**”), in an all-cash transaction valued at \$42.5 million, subject to customary adjustments.

Under the terms of the agreement, Stratasys will acquire all issued and outstanding shares of Markforged. Nano Dimension will retain Markforged’s Metal Binder Jetting product line.

The acquisition is subject to the receipt of regulatory approvals and the satisfaction of other customary closing conditions. The transaction is currently expected to be completed in the second half of 2026.

A copy of our press release announcing the acquisition is furnished as Exhibit 99.1 to this Report on Form 6-K (this “**Form 6-K**”).

Incorporation by Reference

The contents of this Form 6-K, excluding the contents of Exhibit 99.1 annexed hereto, are incorporated by reference into Stratasys’ registration statements on Form S-8, SEC file numbers 333-190963, 333-236880, 333-253694, 333-262951, 333-262952, 333-27049, 333-277836, 333-285590 and 333-294041, filed by Stratasys with the SEC on September 3, 2013, March 4, 2020, March 1, 2021, February 24, 2022, February 24, 2022, March 3, 2023, March 12, 2024, March 6, 2025, and March 5, 2026, respectively, and Form F-3, SEC file numbers 333-251938, 333-288670 and 333-289567, filed by Stratasys with the SEC on January 7, 2021 July 15, 2025 and August 13, 2025, respectively, and shall be a part thereof from the date on which this Form 6-K is furnished, to the extent not superseded by documents or reports subsequently filed or furnished.

Exhibits

The following exhibit is furnished as part of this Form 6-K:

Exhibit	Description
99.1	Press release, dated May 27, 2026, titled “Stratasys to Acquire MarkForged, Inc., Expanding Aerospace, Defense and Industrial Production Capabilities”

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

STRATASYS LTD.

Title: Chief Financial Officer

Stratasys to Acquire MarkForged, Inc., Expanding Aerospace, Defense, and Industrial Production Capabilities

Strengthens Stratasys' position in high-demand manufacturing applications requiring production-grade performance at scale

Enhances go-to-market network coverage, generating additional cross-sale opportunities

Expected to be accretive and realize meaningful cost synergies, along with positive adjusted EBITDA contribution, within first year following close

Stratasys to update guidance following closing of transaction

MINNETONKA, Minn. and REHOVOT, Israel— May 27, 2026— Stratasys Ltd. (NASDAQ: SSYS), a leader in additive manufacturing solutions, today announced that it has entered into a definitive agreement to acquire MarkForged, Inc., a wholly owned subsidiary of Nano Dimension, in an all-cash transaction valued at \$42.5 million, subject to customary adjustments. In 2025, Markforged generated approximately \$70 million in revenue, including their Metal Binder Jetting product line, which Nano Dimension will retain. The transaction is expected to close in the second half of 2026, subject to customary closing conditions and regulatory approvals.

MarkForged, Inc. is a leading provider of end-to-end Fused Filament Fabrication (FFF) solutions. Their integrated platform, The Digital Forge, seamlessly combines hardware, in-house materials, and secure software including simulation, part management, and automated print optimization. By leveraging Continuous Carbon Fiber technology, MarkForged, Inc. enables industries such as aerospace, defense, automotive, and food and beverage to produce parts that are both lighter and stronger than traditional FFF alternatives.

The transaction increases Stratasys' distribution channel and expands its existing capabilities in these industries, further strengthening the company's go-to-market strategy. With the addition of MarkForged, Inc.'s products and technology, Stratasys will be more effectively positioned to meet growing demand for lightweight, high strength, and production ready components that address modern requirements for supply chain resilience and manufacturing agility.

"This acquisition further advances our capabilities to meet customers' growing needs in critical areas such as defense and aerospace at a time when additive manufacturing continues to displace traditional manufacturing for high requirement applications in production," said Dr. Yoav Zeif, Chief Executive Officer of Stratasys. "We believe that our teams can immediately reinvigorate revenue growth by adding MarkForged, Inc.'s products and software systems as we leverage our leading partner networks. We are confident this transaction will strengthen Stratasys' position in many of the largest and most structurally critical industries where performance, supply chain resilience, reliability, and scalability are essential."

Strategic and Financial Benefits of the Transaction:

Adding MarkForged, Inc.'s products to Stratasys' existing products and capabilities is expected to result in many compelling benefits, including:

- **Enhances Portfolio Through Innovative Continuous Carbon Fiber Technology:** MarkForged, Inc.'s differentiated material technology, which is leveraged across its broad portfolio of FFF 3D printers, enables high-strength, lightweight parts that are both a meaningful addition to and differentiated from Stratasys' portfolio of advanced composite solutions. This continuous carbon fiber offering is expected to support aerospace and defense use cases in particular, for tooling, fixtures, ground support equipment, and select production parts, offering mechanical performance and speed that complement traditional manufacturing methods. Through this acquisition, MarkForged, Inc.'s composite capabilities will further enhance Stratasys' ability to support these mission-critical applications within regulated and performance-driven industrial settings.
- **Complementary Software Capabilities:** The transaction is expected to enhance Stratasys' software offering. MarkForged, Inc.'s broad software platform is ideally poised for manufacturing workflow and remote printing, including high performance features such as simulation and inspection with security top of mind. MarkForged, Inc. also has deep expertise in customer-centric workflows and integrated ecosystems, which will further accelerate digital manufacturing initiatives.
- **Expands Materials Offering of High Performance Polymer and Metal Filaments:** MarkForged, Inc. has a robust manufacturing process to develop a wide range of high performance polymer and metal filaments, which, when leveraged alongside Stratasys' existing products and capabilities, will allow the company to provide solutions to a more diverse customer base across key end uses including aerospace and defense, automotive, and food and beverage products.
- **Expected to Deliver Meaningful Accretion and Cost Synergies:** In 2025, Markforged generated approximately \$70 million in revenue. Within one year of closing, Stratasys expects accretion to gross margins and to realize meaningful cost synergies, along with positive EBITDA contribution. Stratasys intends to update guidance following the closing of the transaction.
- **Reshapes Go-To-Market Network Coverage and Geographic Presence:** Bringing MarkForged, Inc.'s partner and reseller network together with Stratasys' is expected to strengthen Stratasys' partner network and generate cross-sale opportunities, bringing greater choice and service to customers.

About Stratasys

Stratasys is leading the global shift to additive manufacturing with innovative 3D printing solutions for industries including aerospace, automotive, consumer products, and healthcare. Through

smart and connected 3D printers, polymer materials, a software ecosystem, and parts on demand, Stratasys solutions deliver competitive advantages at every stage of the product value chain. The world's leading organizations turn to Stratasys to transform product design, bring agility to manufacturing and supply chains, and improve patient care.

Cautionary Note Regarding Forward-Looking Statements

The information in this press release includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may include, but are not limited to, statements relating to the anticipated completion of the acquisition of MarkForged Inc. by Stratasys, Stratasys' objectives, plans and strategies with respect to MarkForged Inc. following its acquisition, the prospective impact of the acquisition on Stratasys' implementation of its strategies and on Stratasys' financial results, and all statements (other than statements of historical fact) that address activities, events or developments that Stratasys intends, expects, projects, believes or anticipates will or may occur in the future. Forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties. Stratasys has based these forward-looking statements on assumptions and assessments made by its management and, in certain cases, by MarkForged Inc.'s management in light of their experience and their perception of historical trends, current conditions, expected future developments and other factors they believe to be appropriate. Important factors that could cause actual results, developments and business decisions to differ materially from those anticipated in these forward-looking statements include, among other things: any potential obstacles to closing the acquisition of MarkForged Inc.; the degree of success of Stratasys in efficiently and successfully integrating the operations of MarkForged Inc. into Stratasys after the acquisition; macroeconomic conditions and the economic environment for additive manufacturing and Stratasys' customers in particular; the impact of competition and new technologies; changes in customers' budgeting priorities; and those additional factors referred to under "Item 3.D. Risk Factors", "Item 4. Information on the Company", and "Item 5. Operating and Financial Review and Prospects" in Stratasys' annual report on Form 20-F for the year ended December 31, 2025, which Stratasys filed with the SEC on March 5, 2026, and in other reports and documents that Stratasys files with or furnishes to the SEC from time to time, which are designed to advise interested parties of the risks and other factors that may affect Stratasys' business, financial condition, results of operations and prospects. Any forward-looking statements made in this press release are made as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
