Quarterly Results of Operations

On August 13, 2026, Stratasys Ltd. ("**Stratasys**", "**we**" or "**us**") announced its financial results for the second quarter ended June 30, 2026. A copy of our press release announcing our results is furnished as Exhibit 99.1 to this Report of Foreign Private Issuer on Form 6-K (this "**Form 6-K**") and is incorporated herein by reference.

In conjunction with the conference call being held on August 13, 2026 to discuss our results, we are furnishing a copy of the slide presentation that provides supplemental information regarding our business and our financial results, and which will be referenced on that conference call. We have attached that presentation as Exhibit 99.2 to this Form 6-K, which exhibit is incorporated herein by reference.

The information in this Form 6-K, including Exhibits 99.1 and 99.2, shall not be deemed to be "filed" for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

Exhibits

The following exhibits are furnished as part of this Form 6-K:

Exhibit	**Description**
99.1	Press release dated August 13, 2026 announcing the financial results of Stratasys Ltd. for the second quarter ended June 30, 2026
99.2	Slide presentation providing supplemental information to be referenced on the conference call of Stratasys Ltd. discussing its quarterly financial results, being held on August 13, 2026

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Stratasys Releases Second Quarter 2026 Financial Results

- ***Revenue of $137.6 million, compared to $138.1 million in the prior year period; up 3.7% sequentially from $132.7 million in the first quarter 2026***
- ***Record consumables quarterly revenue of $66.3 million***
- ***Revenue grew 17% in the largest vertical, Aerospace and Defense, compared to the prior year***
- ***GAAP net loss of $16.9 million, or ($0.19) per diluted share, and non-GAAP net income of $2.3 million, or $0.03 per diluted share***
- ***Adjusted EBITDA of $5.3 million, compared to $6.1 million in the prior year period. Adjusted EBITDA would have been $8.2 million excluding the net impact of $2.9 million related to the strong shekel currency***
- ***Cash used in operations of $18.7 million primarily due to atypical non-routine items; Expects operating cash flow to be positive second half 2026***
- ***$212.5 million in cash, equivalents and short-term deposits and no debt at June 30, 2026***
- ***Reaffirms full-year 2026 outlook other than full-year operating cash flow***

MINNETONKA, Minn. & REHOVOT, Israel - (BUSINESS WIRE) – August 13, 2026 - Stratasys Ltd. (Nasdaq: SSYS), ("Stratasys" or the "Company"), a leader in polymer 3D printing solutions, today announced its financial results for the second quarter ended June 30, 2026.

"Consumables reached a record level this quarter, driven by manufacturing materials, underscoring the continued strength of our strategy to grow the manufacturing portion of our business," said Dr. Yoav Zeif, CEO of Stratasys. "Aerospace and defense (A&D) revenue grew 17% year-over-year, reinforcing the increasing level of adoption in our largest and highest-value vertical. We are also excited by our pending acquisition of MarkForged, which will meaningfully enhance our industrial offering through its continuous carbon fiber technology, materials, and software platform. Our pipeline of new A&D orders continues to build as expected, positioning us to achieve sequential growth. With a debt-free balance sheet, we are poised to keep investing in our strategy from a position of financial strength."

Summary - Second Quarter 2026 Financial Results Compared to Second Quarter 2025:

- Revenue of $137.6 million compared to $138.1 million, an increase of 3.7% sequentially from $132.7 million in the first quarter of 2026.
- GAAP gross margin of 42.3%, compared to 43.1%.
- Non-GAAP gross margin of 47.2%, compared to 47.7%.
- GAAP operating loss of $13.5 million, compared to GAAP operating loss of $16.6 million.
- Non-GAAP operating income of $0.1 million, compared to $1.1 million.

- GAAP net loss of $16.9 million, or ($0.19) per diluted share, compared to net loss of $16.7 million, or ($0.20) per diluted share.
- Non-GAAP net income of $2.3 million, or $0.03 per diluted share, compared to $2.2 million, or $0.03 per diluted share.
- Adjusted EBITDA of $5.3 million, compared to $6.1 million.
- Cash used in operations of $18.7 million, compared to $1.1 million.

Financial Outlook:

Based on the strength of its pipeline of opportunities, the Company is reaffirming its outlook for full year 2026, while modifying its expectations regarding operating cash flow for the year. Due to increased cash usage in the first half of 2026, operating cash flow will not be positive for the full year (as had been stated in the Company's initial outlook for the year), although operating cash flow is expected to be positive for the second half of the year. This updated outlook is based on current market conditions and assumes that the impacts of global inflationary pressures, relatively high interest rates, tariffs, exchange rates and other supply chain costs do not further impede economic activity. The specific metrics include:

- Full year revenue growing to a range of $565 million to $575 million, improving sequentially through the year.
- Based on current logistics and materials costs, full year non-GAAP gross margins of 46.7% to 47.1%, including approximately $7 million of adverse impact from tariffs and foreign exchange rates relative to 2025.
- Full year non-GAAP operating expenses ranging from $260 million to $262 million, including approximately $10 million of adverse impact from changes in foreign exchange rates.
- Full year non-GAAP operating margins in a range of 0.7% to 1.5%.
- GAAP net loss of $83 million to $67 million, or ($0.95) to ($0.76) per diluted share.
- Non-GAAP net income of $8 million to $12.5 million, or $0.09 to $0.14 per diluted share.
- Adjusted EBITDA of $25 million to $30 million, with Adjusted EBITDA margin of 4.5% to 5.0%.
- Capital expenditures of $20 million to $25 million.

Appropriate reconciliations between historical GAAP and non-GAAP financial measures, as well as between the GAAP and non-GAAP financial measures included in our updated financial outlook for 2026, are provided in the tables at the end of this press release and slide presentation, with itemized detail concerning the non-GAAP financial measures. We have not included, however, guidance for 2026 for GAAP gross margin or GAAP operating expenses, or a reconciliation of our guidance for 2026 for non-GAAP gross margins or non-GAAP operating expenses to the most directly comparable GAAP financial measures (i.e., GAAP gross margin and GAAP operating expenses, respectively), as the information needed to provide that GAAP guidance and that reconciliation is not available to us without unreasonable effort or with reasonable certainty from a quantitative perspective. We expect that the foregoing missing information related to our outlook on a GAAP basis for 2026 is likely to result in significant changes relative to our non-GAAP outlook in respect of the subject financial measures.

Stratasys Ltd. Second Quarter 2026 Webcast and Conference Call Details

The Company plans to webcast its conference call to discuss its second quarter 2026 financial results on Thursday, August 13, 2026, at 8:30 AM ET.

The investor conference call will be available via live webcast on the Stratasys Web site at investors.stratasys.com, or directly at the following web address:

https://event.choruscall.com/mediaframe/webcast.html?webcastid=7X5Fi2A6

To participate by telephone, the U.S. toll-free number is 877-407-0619 and the international dial-in is +1-412-902-1012. Investors are advised to dial into the call at least ten minutes prior to the call to register. The webcast will be available for six months at investors.stratasys.com, or by accessing the above-provided web address.

Stratasys is leading the global shift to additive manufacturing with innovative 3D printing solutions for industries such as aerospace, automotive, consumer products, healthcare, fashion and education. Through smart and connected 3D printers, polymer materials, a software ecosystem, and parts on demand, Stratasys solutions deliver competitive advantages at every stage in the product value chain. The world’s leading organizations turn to Stratasys to transform product design, bring agility to manufacturing and supply chains, and improve patient care.

To learn more about Stratasys, visit www.stratasys.com, the Stratasys blog, Twitter, LinkedIn, or Facebook. Stratasys reserves the right to utilize any of the foregoing social media platforms, including the Company’s websites, to share material, non-public information pursuant to the SEC’s Regulation FD. To the extent necessary and mandated by applicable law, Stratasys will also include such information in its public disclosure filings.

Cautionary Statement Regarding Forward-Looking Statements

The statements in this press release regarding Stratasys' strategy, and the statements regarding its projected future financial performance, including the financial guidance concerning its expected results for 2026 and beyond, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the extent of our success at introducing new or improved products and solutions that gain market share; the extent of growth of the 3D printing market generally; the global macro-economic environment, including the impact of increased and/or reciprocal import tariffs that have been imposed by the U.S. and other countries, and of higher energy costs due to the U.S.-Iranian conflict; global trends involving inflation, interest rates, economic activity and currency exchange rates, and their impact on the additive manufacturing industry, our company and our customers, in particular; changes in our overall strategy, including as related to any restructuring activities and our capital expenditures; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intangible assets; the extent of our success at successfully consummating and integrating into our existing business acquisitions or investments in new businesses, technologies, products or services; the potential adverse impact of global interruptions and delays involving freight carriers and other third parties on our supply chain and distribution network; global market, political and economic conditions, and in the countries in which we operate in particular; potential adverse effects of Israel’s wars against Iran and its sponsored terrorist organizations Hamas, Hezbollah, and, intermittently, the Houthi terrorist group in Yemen; costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D “Key Information - Risk Factors”, Item 4, “Information on the Company”, Item 5, “Operating and Financial Review and Prospects,” and all other parts of our Annual Report on Form 20-F for the year ended December 31, 2025, which we filed with the U.S. Securities and Exchange Commission, or SEC, on March 5, 2026 (the “2025 Annual Report”). Readers are urged to carefully review and consider the various disclosures made throughout our 2025 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys’ unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2026, which have been or will be furnished to the SEC throughout 2026, and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this press release are provided or made (as applicable) as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Use of Non-GAAP Financial Measures

The non-GAAP data included herein, including, but not limited to, data for non-GAAP gross margins, non-GAAP operating loss, non-GAAP operating margins, non-GAAP net income, and Adjusted EBITDA, which non-GAAP data excludes certain items, as detailed in the reconciliation tables herein (except for such data related to our outlook for 2026 for which we are unable to provide data for the excluded items), are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our company in gauging our results of operations. Our management utilizes these non-GAAP measures to enable us to assess our financial results (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains and legal provisions, (ii) excluding non-cash items such as share-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items, (iii) for certain non-GAAP measures, after eliminating the impact of changes attributable to currency exchange rate fluctuations, and (iv) after excluding changes in revenues solely attributable to divestitures of former subsidiary companies. The items eliminated as part of our calculation of our non-GAAP financial measures either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. Our non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a reporting period, which may not provide a comparable view of our performance relative to other companies in our industry. Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results, and between certain items for our outlook for 2026, on a GAAP and non-GAAP basis is provided in the tables below.

Forward-Looking Statements

Cautionary Statement Regarding Forward-Looking Statements

The statements in this slide presentation regarding Stratasys' strategy and its projected future financial performance, including the financial guidance concerning its expected results for 2026, are forward-looking statements reflecting management's current expectations and beliefs. These forward-looking statements are based on current information that is, by its nature, subject to rapid and even abrupt change. Due to risks and uncertainties associated with Stratasys' business, actual results could differ materially from those projected or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to: the extent of our success at introducing new or improved products and solutions that gain market share; the extent of growth of the 3D printing market generally; the global macro-economic environment, including the impact of increased import tariffs that have been imposed by the U.S. and other countries; global trends involving inflation, interest rates, economic activity, currency exchange rates, and increased energy costs, and their impact on the additive manufacturing industry, our company and our customers, in particular; changes in our overall strategy, including as related to any restructuring activities and our capital expenditures; the impact of potential shifts in the prices or margins of the products that we sell or services that we provide, including due to a shift towards lower margin products or services; the impact of competition and new technologies; potential further charges against earnings that we could be required to take due to impairment of additional goodwill or other intangible assets; the extent of our success at successfully consummating and integrating into our existing business acquisitions or investments in new businesses, technologies, products or services; the potential adverse impact of global interruptions and delays involving freight carriers and other third parties on our supply chain and distribution network; global market, political and economic conditions, and in the countries in which we operate in particular; potential adverse effects of Israel's recent preemptive or retaliatory wars against Iran and/or its sponsored terrorist organizations Hamas, Hezbollah, and, intermittently, the Houthis; costs and potential liability relating to litigation and regulatory proceedings; risks related to infringement of our intellectual property rights by others or infringement of others' intellectual property rights by us; the extent of our success at maintaining our liquidity and financing our operations and capital needs; the impact of tax regulations on our results of operations and financial condition; and those additional factors referred to in Item 3.D "Key Information - Risk Factors", Item 4, "Information on the Company", Item 5, "Operating and Financial Review and Prospects," and all other parts of our Annual Report on Form 20-F for the year ended December 31, 2025, filed with the U.S. Securities and Exchange Commission, or SEC, on March 5, 2026 (the "**2025 Annual Report**"). Readers are urged to carefully review and consider the various disclosures made throughout our 2025 Annual Report and the Reports of Foreign Private Issuer on Form 6-K that attach Stratasys' unaudited, condensed consolidated financial statements and its review of its results of operations and financial condition, for the quarterly periods throughout 2026, which will be furnished to the SEC throughout 2026, and our other reports filed with or furnished to the SEC, which are designed to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations and prospects. Any guidance provided, and other forward-looking statements made, in this slide presentation are provided or made (as applicable) as of the date hereof, and Stratasys undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Use of Non-GAAP Financial Information

Use of Non-GAAP Financial Measures

The non-GAAP data included herein, but not limited, which excludes certain items as described below, are non-GAAP financial measures. Our management believes that these non-GAAP financial measures are useful information for investors and shareholders of our company in gauging our results of operations. Our management utilizes these non-GAAP measures to enable us to assess our financial results (i) on an ongoing basis after excluding mergers, acquisitions and divestments related expense or gains and reorganization-related charges or gains and legal provisions, (ii) excluding non-cash items such as share-based compensation expenses, acquired intangible assets amortization, including intangible assets amortization related to equity method investments, impairment of long-lived assets and goodwill, revaluation of our investments and the corresponding tax effect of those items, (iii) for certain non-GAAP measures, after eliminating the impact of changes attributable to currency exchange rate fluctuations, and (iv) after excluding changes in revenues solely attributable to divestitures of former subsidiary companies. The items eliminated as part of our calculation of our non-GAAP financial measures either do not reflect actual cash outlays that impact our liquidity and our financial condition or have a non-recurring impact on the statement of operations, as assessed by management. Our non-GAAP financial measures are presented to permit investors to more fully understand how management assesses our performance for internal planning and forecasting purposes. The limitations of using these non-GAAP financial measures as performance measures are that they provide a view of our results of operations without including all items indicated above during a reporting period, which may not provide a comparable view of our performance relative to other companies in our industry.

Investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP. Reconciliation between results on a GAAP and non-GAAP basis is provided in the tables later in this slide presentation. We have not included herein, however, a reconciliation of our non-GAAP guidance for 2026 to the most directly comparable GAAP guidance. Please see our earnings release being published today for that reconciliation (other than for our guidance for non-GAAP gross margin and non-GAAP operating expenses, as we are unable to obtain the information needed to provide either the equivalent GAAP figures (projected GAAP gross margin or projected GAAP operating expenses) or the related reconciliation without unreasonable effort or with reasonable certainty from a quantitative perspective).

Dr. Yoav Zeif
CEO

- Record level consumables sales
- Revenue grew 3.7 percent sequentially
- Operational rigor and disciplined cost management
- A&D Mission-critical requirements translating into durable, structural demand
- Markforged acquisition to meaningfully augment Stratasys offering

Aerospace & Defense – Q2 Revenue +17% YoY in our Largest Business

US Air Force Momentum

- Strong momentum driven by expanding USAF adoption, led by multiple-system F900 investments
- Orders growing in volume across their sustainment enterprise, turning into large ongoing programs

Quickparts Agreement

- Expanded relationship with international on-demand manufacturer
- Twelve NEO800+ systems on top of existing six - multi-year, multi-million-dollar deal
- For end-use parts MFG in key verticals such as aerospace, defense, advanced mobility and energy

America Makes Win

- Awarded a two-year, $7.8M program from America Makes, the leading US public-private partnership with DoW for additive manufacturing, to advance next-gen in-situ monitoring for our F900/F3300
- Long-term DoW strategy positions Stratasys as trusted foundation for qualified manufacturing

Stratasys Direct Parts MFG +12.1% Driven by Defense

- Growth fueled primarily by increasing demand from defense technology companies for drone production, munitions manufacturing, and production applications across next generation platforms

Automotive

FANUC Adoption

- FANUC, a leading industrial automation company, adopted Stratasys industrial solutions — reflecting a broader trend of OEMs and suppliers aligning on common platforms so parts can be qualified once and made anywhere
- Engagement came at the request of a major auto OEM customer seeking to standardize tools and parts with FANUC, improving consistency and cutting lead times

FAW Group Agreement

- FAW Group, one of the largest Chinese auto OEMs, will purchase twelve F900 systems by year-end (two shipped in Q2), on top of five F900s and eight other Stratasys systems already in operation
- Systems primarily produce interior end-use parts like armrests and panels — a strong example of recurring business as customers experience Stratasys' value on their production lines

Markforged Acquisition

Markforged is a full solution OEM Manufacturer of Fused Filament Fabrication (FFF) technology

- Provides hardware, materials, and software solutions to a broad range of industries including aerospace, defense, automotive, and food and beverage
- Enables production-grade, high-strength, lightweight parts for demanding industrial applications
- ~$70M of revenue in (2025)
- $42.5M all-cash[(1)] purchase price
- Integration of talent, partner and reseller network

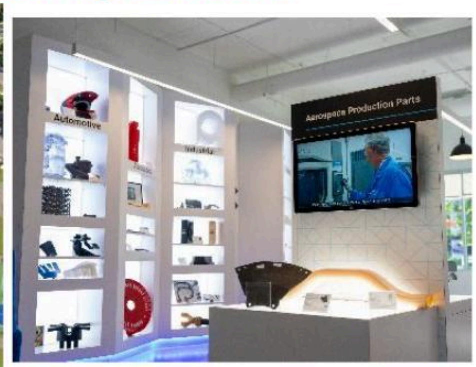
Transaction Highlights

- Adds differentiated capabilities to Stratasys with continuous carbon fiber technology, and proprietary polymer and composite offering
- Strengthens leadership and product offering in attractive target verticals of aerospace & defense, automotive and industrial tooling
- Advanced software for high requirement production applications
- Expands presence in high-performance, production-grade end-use applications
- Broadens go-to-market reach by combining complementary reseller and partner networks and unlocks cross-selling opportunities
- Gross margin accretive transaction, expecting significant cost synergies and a positive EBITDA contribution within the first year
- Expected close by the end of 2026, subject to customary approvals and conditions

(1) On a cash-free debt-free basis, subject to closing adjustments

stratasys

ARCH – 200,000 Sq. Foot Facility to Support Growing Demand



ARCH – New Americas Regional Corporate Headquarters

- Grand opening of ARCH, a 200,000 square foot facility in Minnetonka, Minnesota
- ARCH brings together engineering, innovative research and development, applications expertise, Stratasys Direct, and customer collaboration capabilities, under one roof
- Will support anticipated growing demand and reinforces our focus on production-scale, additive manufacturing
- Encouraging feedback from investors - seeing our technology at work in a real-world environment can greatly enhance the appreciation for our strategy - we look forward to hosting more of the investment community in the future

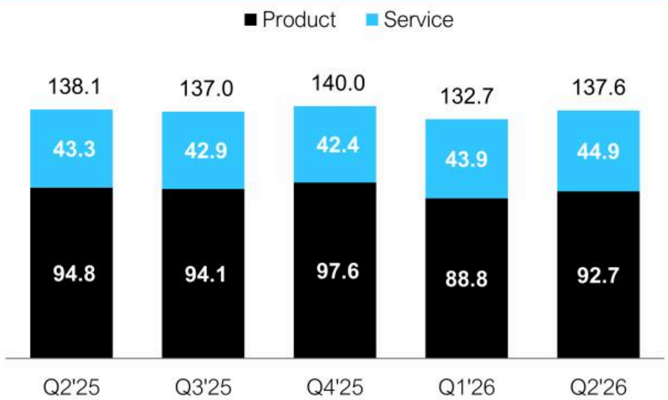
Eitan Zamir
CFO

Second Quarter Results Reflect:

- Continued execution on our manufacturing-focused strategy
- Deepened customer reliance on our solutions, as demonstrated by highest-ever revenue for consumables
- Multiple repeat-customer sales for aerospace, defense and automotive customers

Q2 2026 Revenue

Quarterly Trend



Revenues – Q2'26

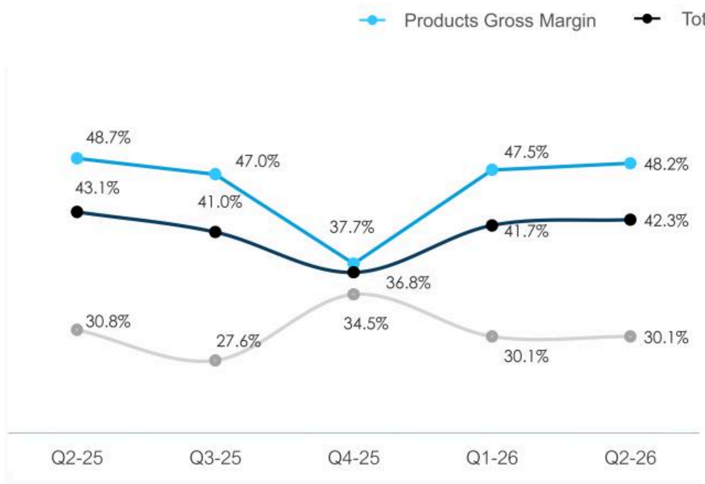
Revenue	Y/Y
Product - $92.7M	-2.2%
▪ Systems - $26.4M	-13.7%
▪ Consumables - $66.3M	3.3%
Services - $44.9M	3.7%
▪ Customer Support - $29.9M	-1.0%

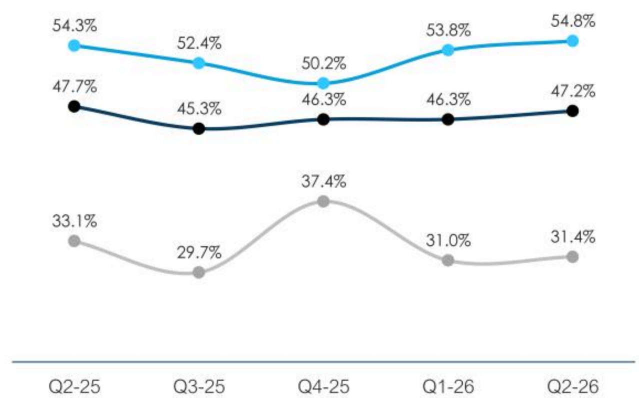
Note: $ in millions unless noted otherwise. All numbers and percentages rounded.

Q2 2026 Gross Margins

GAAP

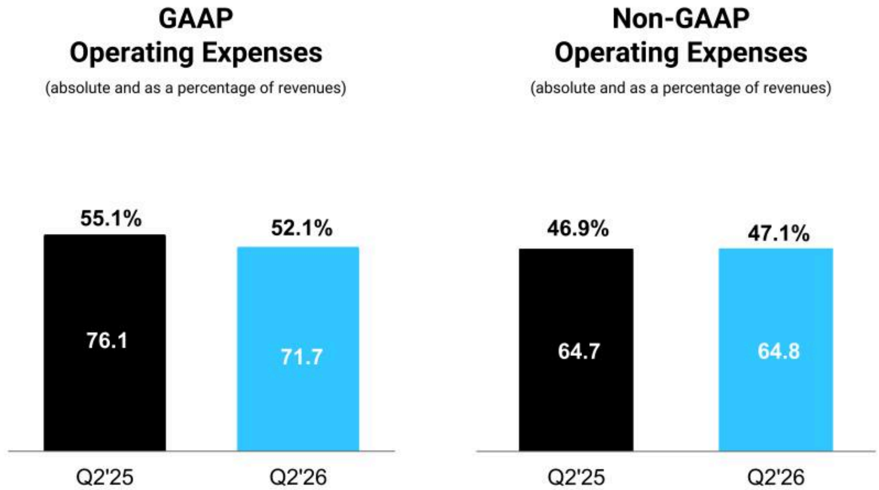
Non-GAAP





Note: All percentages rounded.

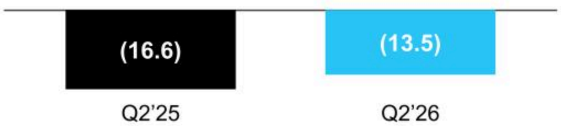
Q2 2026 Operating Expenses



Note: $ in millions unless noted otherwise. All numbers and percentages rounded.

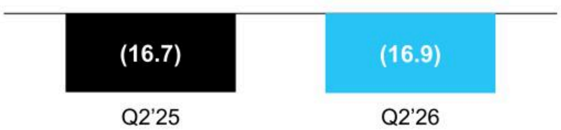
Q2 2026 Operating, Net and EBITDA

GAAP Operating Loss



GAAP Net Loss

EPS diluted ($0.20) in Q2'25 vs ($0.19) in Q2'26

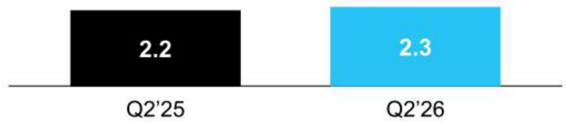


Non-GAAP Operating Income

0.8% in Q2'25 vs 0.1% in Q2'26 out of total revenue

Non-GAAP Net Income

EPS diluted $0.03 in Q2'25 vs $0.03 in Q2'26



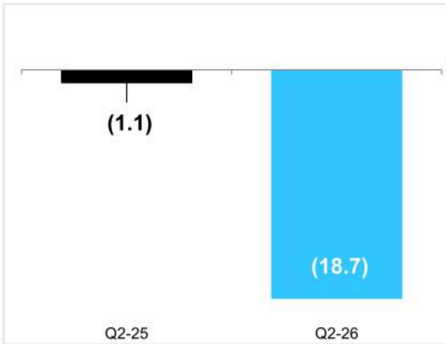
Adjusted EBITDA

4.4% in Q2'25 vs 3.9% in Q2'26 out of total revenue

Note: $ in millions, except per share amounts unless noted otherwise. All numbers and percentages rounded.

Strong Balance Sheet – $212.5M Cash, Equivalents and No Debt

Cash Flow from Operating Activities



Balance Sheet Items

	Q2-25	Q4-25	Q2-26
Cash and Cash Equivalents and Short-term deposits	254.6	244.5	212.5
Accounts Receivable	157.9	160.5	160.4
Inventories	164.6	145.2	143.9
Net Working Capital	448.8	418.9	396.0

Q2 Cash usage atypically high, mainly driven by non-routine items including legal expenses to proactively protect IP

Note: $ in millions unless noted otherwise. All numbers and percentages rounded.

2026 Full-Year Outlook

$565M – $575M
Revenues

46.7% – 47.1%
Non-GAAP
Gross Margins
Includes ~$7M adverse impact from FX & Tariffs

$260M – $262M
Non-GAAP
Operating Expenses
Includes ~$10M adverse impact from FX

0.7% – 1.5%
Non-GAAP
Operating Margins

$8M – $12.5M
$0.09 – $0.14
Adjusted Net Income
Adjusted EPS diluted
GAAP Net loss ($83M) - ($67M)
GAAP EPS ($0.95) - ($0.76)

$25M – $30M
Adjusted EBITDA
4.5% - 5.0% of Revenue
Includes ~$17M adverse impact from FX & Tariffs

$20M – $25M
CAPEX

Positive Operating Cash Flow for H2 2026
Subject to foreign exchange rate and tariff uncertainty

Dr. Yoav Zeif, CEO
Summary

Confidence in strategy and durability of megatrends driving additive manufacturing adoption

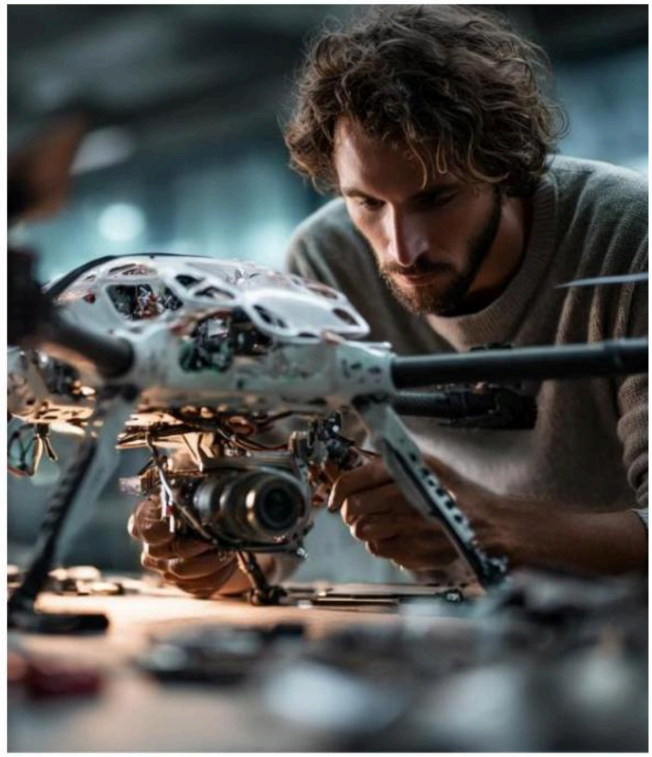
Successfully executing on stated goal to transform our business from prototyping to manufacturing

Manufacturing revenue is growing making us more robust and a larger part of our customers critical production line infrastructure

Multi-unit, multi-year wins reflect increasing enthusiasm and usage

Strong customer engagement as magnitude of commitments bring longer sales cycles with many opportunities emerging to generate a sales flywheel propelling increased growth in the coming years

Aerospace, defense and automotive momentum, anticipated impact from dental and ongoing Stratasys Direct contribution reinforce the structural demand across key verticals, as we build long-term value



THANK
YOU
